## iFu | The interactive soccergame

The interactive soccergame captivates your customers at exhibitions and events.

### Game concept

Via a camera, the player is integrated in the virtual gamesurface as a goal keeper. He now has to try to parry the computer animated balls. The audience can watch the goal keepers activities live to raise real stadiumatmosphere.

### Soundatmosphere

Due to stereosound iFu is not only a visual but also an auditory experience and accents the different game situations.

## iFu | The features

### ⚽ Company-specific branding

The virtual gamesurface can be branded specifically to your company. That means that your product, your claim and / or your logo will be displayed in the virtual stadium. On the scoreboard as well as on the stadium boards. Your logo is always present.

### ⚽ Action photos of your customers as give-away

After the game screenshots of the player's action including your companies branding can be printed. The customer can take this screenshot along as a souvenir.

### ⚽ Great attention by combining soccer with innovative technology

A soccer game moves the mind. Paired with innovative technology, soccer will be the highlight of your event.

### ⚽ Individual adjustable level of difficulty for longt-term fun

Adjust the speed or the amount of the virtual soccerballs to ensure the long-term amusement of your customers.

## iFu | Variable applicable

### Screen

iFu can be projected onto all displays or silver screens, e.g. LED-Panel.

### Variable applicable
